

## **UGA LIVE EVENT STREAMING (Athens campus)**

- **\$75 per hour**
- Department events should always be held at a location that already has an existing fiber feed (no wireless) and has connections for video recording equipment to send a feed over fiber back to CTL's headend. Further discussions and planning will need to be arranged if one or both need is not present in the room. Additional cost may apply.
- Two weeks notice is needed for locations that already have existing connections and feed capabilities available.
- For locations that are not setup for live streaming. Discussions will need to be made as to whether the location can or needs to become one. At least one month's notice needs to be given.
- Departments must use the Center for Teaching & Learning's production unit for streaming video feed.
- Most events are streamed live through CTL's website. A non-active link can be given in advance of the event to direct viewer's where to tune in to watch on the day of. Some situations require it be streamed through the department's website. If this is necessary, the needed information will be given to the department IT member who oversees the website. CTL will need to be credited on the website for streaming the event.

Please contact Krystal Pintar at [kpintar@uga.edu](mailto:kpintar@uga.edu) or 706-542-6686 to make a streaming event request or for more information
